| • GitHub | • VS Code | | |

PROJECTS

Weather Focus App

- Built a responsive weather-focused web application.
- Designed modern UI using Tailwind CSS.
- Implemented interactive features using JavaScript.

MIIT University Management System (UMS)

- Worked as a frontend developer in a group project.
- Built UI components and improved system usability.

Shin Min Thant, Computer Science Graduate

- Collaborated effectively with team members using Git/GitHub.

MIIT Social App

- Developed a social media-style web application.
- Built reusable components and dynamic UI layouts.
- Focused on responsive and scalable frontend design principles.

LANGUAGES

Burmese (Native), English (Intermediate), Chinese (Basic)

EXPERIENCE

KBZPay Student Ambassador, KBZ Bank

- Completed 2-day training and 3-day on-the-job training (OJT)
- Strengthened communication and teamwork through student engagement activities
- Gained insights into digital banking systems and FinTech operations
- Developed confidence in real-world professional communication
- Understood how technology supports modern financial services skills.

Python & Django Web Development Training, Realistic Infotech Group

- Learned Python programming fundamentals
- Built web applications using Django framework
- Understood backend development concepts

Data Engineering Scholarship Program, Realistic Infotech Group

- Databases (MySQL, SQL Server, Oracle, NoSQL)
- SQL, ER Modeling, Normalization
- Data Warehousing & Data Pipelines
- Python & R Programming
- Data Architecture & Power BI

CERTIFICATIONS
